

# Perceptions of Hospice & Palliative Care among Latinx Agricultural Workers in Monterey County

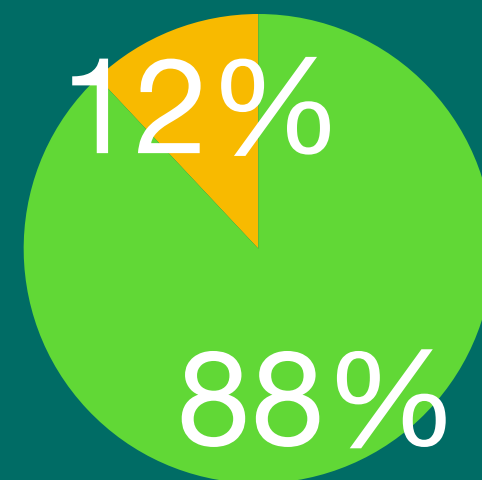

## Survey

26 workers were individually surveyed using a 6 question instrument.

60% agreed that H&PC services are important for the community while 32% had not heard of these services.

Only 12% felt they would access services if needed.

## Barriers

Participants most commonly described the following barriers to accessing H&PC

- “It is too expensive and not covered by insurance”
- “These services are for those who have no family to take care of them”

## Lessons Learned

**Awareness and education are the core barriers to utilization of H&PC services.**

**These are magnified by language, cultural and insurance concerns.**
